SMS DATA HANDLING AND PRIVACY POLICY

No Approval History

Purpose

This SMS Privacy & Data Handling Policy explains how **[Your Company Name]** collects, uses, stores, and protects personal data when sending or receiving text messages through **Microsoft Teams SMS**. This policy applies to **employees, customers, and authorized users** who participate in SMS communications with our organization.

Scope

SMS messages sent through Microsoft Teams are used exclusively for legitimate business purposes, including:

- Client and customer communication
- Internal employee communication
- Operational or service-related notifications

- Security and authentication messages, including **Multi-Factor Authentication (MFA)** and one-time passcodes (OTP)

SMS messaging is **not used for marketing or promotional purposes** unless explicitly stated and separately consented to.

Data Handling and Privacy

Information We Collect

When you participate in SMS communications, we may collect and process the following information:

- Mobile phone number
- Message content (sent and received)
- Date and time of messages
- Message status (sent, delivered, failed)
- System or security metadata associated with MFA or verification events

We do **not** collect unnecessary personal data through SMS.

How We Use SMS Data

SMS data is used solely to:

- Enable two-way business communication
- Provide customer or employee support
- Deliver service or account notifications
- Facilitate secure authentication and identity verification
- Maintain security, audit, and compliance records

SMS data is **never sold** or used for unauthorized secondary purposes.

Legal Basis & Consent

We process SMS data based on one or more of the following lawful grounds:

- User or recipient consent
- Performance of a contract or service
- Legitimate business interests
- Security and fraud-prevention requirements

For MFA and security messages, SMS delivery is considered **essential service communication** and may be required to access systems or services.

Opt-Out & User Controls

Business Communication Messages

Recipients may opt out of non-security SMS messages at any time by replying:

- **STOP**
- **CANCEL**
- **UNSUBSCRIBE**

Once opted out, no further business SMS messages will be sent unless clarification or re-consent is provided.

MFA & Security Messages

Opting out of SMS-based MFA may limit access to certain systems. Users should contact **[Support Contact]** to configure alternative authentication methods.

Data Retention

SMS messages and related metadata are retained only for as long as necessary to:

- Support business operations
- Meet legal, regulatory, or audit obligations
- Resolve disputes or security investigations

Retention periods vary based on message type and applicable regulations. Data is securely deleted when no longer required.

Data Storage & Security

SMS data is processed and stored using **Microsoft Teams and Microsoft cloud services**, which employ strong technical and organizational safeguards, including:

- Encryption in transit and at rest
- Access controls and authentication
- Logging and monitoring
- Compliance with recognized security standards

Access to SMS data is restricted to authorized personnel only.

Data Sharing & Third Parties

We do not share SMS content with third parties

Cross-Border Data Transfers

SMS data may be processed or stored in locations where Microsoft or its authorized service providers operate. Appropriate safeguards are applied to protect personal data in accordance with applicable laws.

User Rights

Depending on your jurisdiction, you may have the right to:

- Request access to your personal data
- Request correction or deletion
- Object to or restrict processing
- Withdraw consent (when applicable)

Requests may be submitted to servicedesk@roansolutions.com.

Changes to This Policy

We may update this SMS Privacy & Data Handling Policy periodically. Updates will be posted on our website, and continued participation in SMS communications constitutes acceptance of the revised policy.
